## Investment Allocation

**(Please fill out Option I, Option II, or Option III. Do not fill out more than one option.)**

Fill out Option I, Option II, or Option III. Please complete only one option.

By completion of Option I or Option II you enroll in GoalMaker, Prudential's asset allocation program, and you direct Prudential to invest your contribution(s) according to a GoalMaker model portfolio that is based on your risk tolerance and time horizon. You also direct Prudential to automatically rebalance your account quarterly according to the model portfolio chosen. Enrollment in GoalMaker can be canceled at anytime.

Please refer to the Get Started Guide for more information on rebalancing and age adjustment.

Option I or Option II must be completed accurately, otherwise your investment allocation will be placed in GoalMaker with age adjustment.

Option III must be completed accurately and received by Prudential **before** assets are accepted; otherwise, contributions will be placed in the default investment option selected by your plan. Upon receipt of your completed enrollment form, **all future** contributions will be allocated according to your investment selection. You must contact Prudential to transfer any **existing** funds from the default option.

Morningstar uses a holistic, total wealth approach steeped in research that considers an investor's unique risk preferences and risk capacity to map an investor to the most appropriate overall stock and bond mix in weights represent the optimal combination of "accumulation-oriented" characteristics vs. given the unique profile of the investor.

In applying particular asset allocation models to your individual situation, you should consider your other assets, income, and investments (e.g., equity in a home, Social Security benefits, individual retirement plan investments, savings accounts, and interests in other qualified and non-qualified plans) in addition to your interests in the plan.

There are other designated investment alternatives that have similar risk and return characteristics available and can be viewed in the "design your own allocation section" of this form. More information on these investment alternatives is available by logging on to prudential.com/online/retirement or by calling the number listed on this form.

### Option I – Choose GoalMaker with Age Adjustment

By selecting your risk tolerance, and confirming your expected retirement age below, your contributions will be automatically invested in a GoalMaker model portfolio that is based on your risk tolerance and years left until retirement. You also confirm your participation in GoalMaker's age adjustment feature, which adjusts your allocations over time based on your years left until retirement.

Select Your Risk Tolerance       Conservative       Moderate       Aggressive

### Confirm Your Expected Retirement Age

Expected Retirement Age: 6 2

Yes. Please use the default Expected Retirement Age listed above.

No. Please use       as my expected retirement age.

OR

### Option II – Choose GoalMaker *without* Age Adjustment

I do not want to take advantage of GoalMaker's age adjustment feature. Please invest my contributions according to the model portfolios selected below and I acknowledge that I have reviewed the additional GoalMaker and investment information within the option 1 section above and that I have received a list of investments with similar risk and return characteristics as noted in the "design your own investment allocation section" of this document. More information on these investment alternatives is available by logging on to prudential.com/online/retirement or by calling the number listed on this form.

### Option III – Design your own investment allocation

If you would like to design your own asset allocation instead of selecting GoalMaker, designate the percentage of your contribution to be invested in each of the available investment options. (Please use whole percentages. The column(s) must total 100%.)

I wish to allocate my contributions to the Plan as follows:
